Sample Screen Shots --> Very simple and user friendly interface !

The screenshot displays the Fran Easy Business Information System interface, which is powered by ONE-POS. The interface is divided into several main sections:

- Search Gift Voucher:** A window for searching gift vouchers, showing fields for Campaign ID, Name, and Return Rows. A search result table is visible below.
- Maintain Gift Voucher:** A window for maintaining gift voucher details, including fields for Campaign ID, Name, Face Value, and Description.
- Product Maintenance:** A window for maintaining product information, including fields for Product ID, Name, Manufacturer, Category, Effective Period, and various pricing and logistic information.
- POS System:** The main point-of-sale interface, featuring a table of items, a product category grid, and a product grid. The table shows items with columns for No., Product, Product Name, Base Pr, Qty, UOM, SubTotal, T1, T2, and BD.

The POS System window includes a summary section with the following data:

Sales Representative		Summary	
Sales Rep.:	admin	Pri. Adj.:	
Name:	Admin	Total:	1600.00 HKD
Accumulate Member pts:	<input checked="" type="checkbox"/> 0	Tax:	0.00 HKD
		DOB:	0.00 HKD

The Grand Total is displayed as **Grand Total: HK 1600.00**.
